

Online Domestic Wire Processing

Sometimes you need to get money sent in the fastest, securest way possible. Online Domestic Wire Processing is the tool for your business to accomplish this goal.

What are the benefits of Online Domestic Wires?

- It's easy! Input the wire instructions and send!
- Efficient! It's the fastest way to send money.
- Security – multiple layers of authentication and configurable limits.
- Final Payment – wires provide finality of payment to the payee.
- Reporting – set up notifications that a wire has been sent

How does this work?

You initiate a wire transfer request online.

CBBC Bank transfers the funds to the Federal Reserve.

The Federal Reserve forwards the funds to the Receiving Bank.

The Receiving Bank receives the funds.

The Receiver gets final credit of funds to their account.

**Let's keep the conversation going.
